Academic Appointments

Harvard Business School AI Institute — Boston, MA, US
Postdoctoral Fellow, Digital Reskilling Lab — 2026 – present

Leibniz Institute for Financial Research SAFE — Frankfurt am Main, Germany
Research Affiliate — 2026 – present

Research Interests

Human-AI collaboration, Technology adoption, Behavioral economics

Publications

[1] Knowing (Not) to Know: Explainable Artificial Intelligence and Human Metacognition
with Moritz von Zahn, Ekaterina Jussupow, Oliver Hinz and Kevin Bauer (2026)
Information Systems Research, 37(3), 1485–1507.

Abstract: The use of explainable artificial intelligence (XAI) to render black-box artificial intelligence (AI) more interpretable to humans is gaining practical relevance. Prior research has shown that XAI can influence how humans "think". Yet, little is known about whether XAI also affects how people "think about their thinking" (i.e., their metacognitive processes). We address this gap by investigating whether XAI affects metacognitive processes that guide human confidence judgments about their ability to perform a task and thereby, their decision whether to delegate the task to AI. We conducted two incentivized experiments in which domain experts repeatedly performed prediction tasks, with the option to delegate each task to an AI. We exogenously varied whether participants initially received explanations about AI's overall prediction logic. We find that AI explanations improve how well humans understand their own ability to perform the task (metacognitive accuracy). This improvement causally increases both the frequency and effectiveness of human-to-AI delegation. Additional analyses show that these effects primarily occur when explanations reveal to humans that AI's prediction logic diverges from their own, leading to a systematic reduction of overconfidence. Our findings highlight metacognitive processes as a central, previously overlooked channel through which AI explanations can influence human-AI collaboration. We discuss practical implications of our results for organizations implementing XAI to comply with regulatory transparency requirements as, for example, outlined in the European Union Artificial Intelligence Act.

[2] Can GPT Mimic Human Preferences? An Empirical and Structural Investigation
with Kevin Bauer and Michael Kosfeld (2025)
Proceedings of the European Conference on Information Systems (ECIS 2025)

Abstract: We examine the depth of large language models' (LLMs) potential to serve as tools for simulating human decision-making processes. Using GPT-4 Turbo in a sequential prisoner's dilemma, we find significant discrepancies between LLM-generated and human behaviors: GPT consistently exhibits a higher propensity to cooperate and forms overly optimistic expectations of human cooperation, leading to outcomes that diverge from observed human decision-making patterns. Yet, GPT's decisions do not appear random; they align with a formal model of human preferences for fairness and efficiency that explains the behavior of most human participants in similar settings. We find a striking

> contrast: while GPT may fall short as accurate surrogate for human decisions at the surface level, the model nonetheless exhibits a capacity to reflect the underlying preferences that drive human behavior in strategic contexts. Our findings have implications for LLMs' potential to serve as a managerial or research tool in simulating human behaviors.

Education

Goethe University Frankfurt (**GSEFM**) — Frankfurt am Main, Germany
PhD in Economics, *summa cum laude* — 2020 – 2026
Dissertation: *Essays on Human-AI Interaction and Household Finance*
Committee: Christine Laudenbach (first supervisor), Michael Kosfeld (second supervisor), Guido Friebel, Florian Hett

University of Melbourne — Melbourne, Australia
Visiting Scholar, Centre for Brain, Mind and Markets — 2025 – 2026
Two-month research stay hosted by Carsten Murawski

CUHK Business School — Hong Kong SAR
Visiting Scholar, Department of Decisions, Operations and Technology — 2025
Two-month research stay hosted by Jenny (Qianran) Jin

Goethe University Frankfurt (**GSEFM**) — Frankfurt am Main, Germany
MSc in Quantitative Economics — 2020 – 2025
Electives: Applied Econometrics, Household Finance, Experimental Finance

University of Bonn — Bonn, Germany
BSc in Economics — 2016 – 2020
Electives: Experimental Economics, Game Theory, Contract Theory, Applied Microeconometrics

Teaching

Gutenberg School of Business, JGU Mainz — Mainz, Germany
Teaching Assistant, *Machine Learning for Management Decisions* — 2025
MBA course held by Kevin Bauer

University of Bonn — Bonn, Germany
Teaching Assistant, *Financial Markets and Institutions* — 2019
BSc Economics course held by Isabel Schnabel

Awards, Grants & Scholarships

Publication Prize for Early Career Researchers — 2026
For the forthcoming publication of *Knowing (Not) to Know: Explainable Artificial Intelligence and Human Metacognition* in *Information Systems Research*, awarded by the Faculty of Economics and Business at Goethe University Frankfurt

Award for Excellence in Teaching — 2026
Joint with Kevin Bauer, for the MBA course *Machine Learning for Management Decisions*, Gutenberg School of Business, JGU Mainz

SAFE Young Researcher Travel Grant — 2025
Fully-funded research visits to CUHK Business School and the University of Melbourne

Best Discussion Award — 2025
9th SAFE Household Finance Workshop, sponsored by Behavioural Finance e.V. (€1,000)

First-Year PhD Scholarship — 2020 – 2021
Leibniz Institute for Financial Research SAFE

Conferences, Seminars and Invited Talks

- 4th Workshop on Behavioral, Digital and Financial Economics, JGU Mainz (presentation) — 2026
- Digital Economy Workshop (presentation)
- AI Plus Management Doctoral Consortium, UCL School of Management (presentation, cancelled)
- SAFE Brown Bag Seminar (presentation)

- SAFE Junior Scholars Workshop: The New World of Corporate Boards (presentation) — 2025
- 3rd Workshop on Behavioral, Digital and Financial Economics, JGU Mainz (presentation)
- University of Oxford, Faculty of Law (presentation)
- 9th SAFE Household Finance Workshop (discussion)
- CUHK Business School (presentation)
- 38th Australasian Finance and Banking Conference, UNSW Business School (presentation)

- 2nd Workshop on Behavioral, Digital and Financial Economics, JGU Mainz (presentation) — 2024
- SAFE Brown Bag Seminar (presentation)
- 9th Spring School in Behavioral Economics, UCSD Rady School of Management (poster)
- Machine+Behavior Conference, MPI / Toulouse School of Economics / University of British Columbia (poster)
- 8th SAFE Household Finance Workshop (discussion)
- EconTribute Workshop on Human-AI Collaboration, University of Cologne (lightning talk)

- 1st Workshop on Behavioral, Digital and Financial Economics, JGU Mainz (presentation) 2023
- PhD course *Subjective Beliefs, Attention and Economic Behavior*, University of Copenhagen (poster)
- 1st Bonn-Frankfurt-Mannheim PhD Conference (presentation)
- Workshop on Interactions of Humans and Algorithms, TU Berlin (poster)
- SAFE Brown Bag Seminar (presentation)
- Society for Experimental Finance Summer School, University of Sofia
- 7th SAFE Household Finance Workshop (presentation)
- CORA Conference on Robots and Automation, Goethe University (presentation)
- ZEW / University of Mannheim Experimental Seminar (presentation)

- 6th SAFE Household Finance Workshop (discussion) 2022

Academic Service

Supervision of Master's and Bachelor's theses (Leibniz Institute for Financial Research SAFE) 2022 – 2026

Representative of PhD Researchers (Leibniz Institute for Financial Research SAFE) 2022 – 2024

Member of Student Representatives (GSEFM, Goethe University Frankfurt) 2020 – 2024

Organizing Committee, 1st Bonn-Frankfurt-Mannheim PhD Conference with keynote by Ulrike Malmendier (Goethe University Frankfurt) 2023

Referee 2025
- European Conference on Information Systems (ECIS)

Professional Experience

Academic

Leibniz Institute for Financial Research SAFE Frankfurt am Main, Germany
Junior Researcher / Doctoral Student, Department of Household Finance 2022 – 2025

European Central Bank Frankfurt am Main, Germany
Academic Researcher, DG Macroprudential Policy and Financial Stability 2022 – 2023

European Central Bank Frankfurt am Main, Germany
Trainee, DG Macroprudential Policy and Financial Stability 2022

Leibniz Institute for Financial Research SAFE Frankfurt am Main, Germany
Student Research Assistant 2021 – 2022

German Council of Economic Experts (GCEE) Wiesbaden, Germany
Research Intern, Scientific Staff 2020

Non-Academic

Consulting, media and language tutoring 2015 – 2020
- Consulting Intern and Assistant (organizational change management), CPC Unternehmensmanagement AG, Bonn & Frankfurt am Main, Germany
- Student Assistant, Editorial Office *Documentaries*, phoenix / ZDF, Bonn, Germany
- German Language Tutor (Gap Year), Bilbao, Spain

Affiliations

- Harvard Business School AI Institute
